

Kapitula Y. V.

Development of the cable-overhead DC transmission line protection algorithm.

The article shows the need for protection algorithm for line cable overhead DC transmission. Building a security algorithm based on the laws of the processes in case of damage to the cable or overhead sections.

Key words: cable-overhead line, short-circuit, line protection.

Kapitula Julia Vladimirovna, Researcher of Direct Current Department of the High Voltage Direct Current Power Transmission Research Institute (JSC «NIPT»).
